#### **Providing Critical Skills**

### For Your Organization

Realization for

Public Works

Projects

CTI Associates brings together the broad range of management and technical skills needed to assist public agency clients. For municipal, public works and transit agencies, our staff and associates help you to manage the process of project and program delivery, and to bridge gaps in your in-house capabilities. Many agencies find it advantageous to utilize our experienced staff on an asneeded basis, such as for a specific project or program, or during a project of limited

duration. Our services are structured to fulfill these needs.

For many agencies our associates have become staunch and trusted advocates, aggressively seeking and obtaining public works-based grant funding for design and construction projects. We are highly knowledgeable of the various federal, state, regional and local sources available for project funding.

In summary, CTI Associates is committed to providing your agency with the very best project delivery resources to help achieve your agency's vision.
